“The New Bottom Line”
2012 Sustainable Development Conference

The conference will take you on a quantum leap into the future of sustainability. Resilience, Adaption and Enterprise is the new bottom line as the realities of extreme climate events and the business of everyday life come together.

Mara Bun  
CEO, Green Cross Australia  
Green Cross Australia empowers people to respond to environmental change. Mara has experience in the community, research, investment banking and development with Morgan Stanley Bank, Greenpeace and the World Bank.

Darren Bilsborough  
Director, rIGAR Group  
riGAR does corporate strategy development and business planning in terms of intergenerational asset value creation and growth. Darren is also Adjunct Professor of Sustainability at Curtin University Sustainability Policy (CUSP) Institute.

Professor Paul Hardisty  
Global Director, Sustainability  
EcoNomics  
Worley Parsons  
Paul advises corporations and government on environmental and social sustainability. He has particular expertise in environmental strategy and decision making, and the financial and economic aspects of sustainability.

Michele Villa  
Partner, Advisory Climate Change & Sustainability Services  
Ernst & Young  
Michele is an expert at integrating environmental issues into the long-term financial success of organisations including identifying risk, improving business performance and implementing best practice for future emissions trading.

Brad Pettit  
Lord Mayor, City of Fremantle  
Brad is leading the transformation of the City of Fremantle to a community that is accepting of new sustainable development. Brad was the Dean of the School of Sustainability at Murdoch University.

Darrel Williams  
Director, Norman Disney & Young  
Darrel has actively contributed to the development of some of NDY’s most sustainable projects. His experience ranges from bespoke advice on office fit-outs, through strategic master planning on large mixed use developments.

Patrick Chaney  
Construction Manager  
Gavin Construction  
Patrick has extensive experience in the construction of shopping centres, showroom and warehouses and public buildings. His current projects include the first 5 Star Green Star industrial construction in Australia.

Damien Moran  
Director  
HFM Asset Management  
Damien specialises in the design and implementation of building efficiency programs for all types of properties and is particularly interested in embedding energy management procedures into buildings to drive efficiency improvements.
